

Affordable Hybrid

Biography

Affordable Hybrid is a four-piece act formed 2003 in Vänersborg, Sweden. After some line-up changes and a change of musical direction the band found the sound that they were looking for. It can be described as a mix of postpunk and hardcore, in the veins of bands such as Drive Like Jehu, Fugazi and At the Drive-in. In late 2004 Affordable Hybrid recorded their CDEP "Maladroit Missile" that was later to be released on the small, independent label Gunsmoke Records. This release has been followed by gigs all over Sweden and the borders to Germany, Denmark and Norway have also been crossed. During spring of 2007 the band's debut album will be recorded and we all look forward to see where the constantly evolving music has taken Affordable Hybrid this time..
